

# SLEEVE LEAD

**Sleeve Lead** is a new solution for boring across areas that can't be crossed with an open trench.

- Sidewalks
- Driveways & Pads
- Patios
- Areas with heavy root cover
- Turfed areas
- Retaining Walls

**NEW & IMPROVED DESIGN!**

## SLEEVE LEAD FEATURES:

SL-KIT consists of a forged steel cone shaped boring tip & impact end cap.

- Cleaner, quicker, and simpler than the water boring method.
- Lightweight, compact and easy to store on any work vehicle.
- Leaves no voids in the soil.
- More cost effective than other bore sleeve products.
- Any length of 2" Sch. 40 PVC sleeve can be used.

SL-V2-KIT

## EASY INSTALLATION:

- Use a sledgehammer to drive a 2" Sch. 40 PVC pipe through the soil with cone tip and impact end cap.
- PVC is left in place and used as conduit.
- If obstacles are encountered, the included pull-cord may be used to remove the assembly and try again in a different location.

Part#	Description	Price ea.	Case Price ea. (qty. 12)
<b>SL-V2-KIT</b>	Sleeve Lead Kit (Incl. Cone & Impact End Cap)	\$154.98	\$144.98
